More HTTP response (status) codes
Just the most commonly-seen ones

- 200 OK

- 301/302/303/307/308 — various forms of redirection

- 404 Not Found

- 403 Forbidden

- 500 Server Error

Stuff to fix

- Repetition: what JS can and can't do in FE/BE

- Poor continuity: the game example shows GETs for various resources, but only in the next chapter do we say why that is

-
