Product Ideas

1. Product Idea: Weekly Recipe Web App

Vision:
A web app that helps users plan their meals for the week. Eventually, it should include recipes with pictures, cooking steps, and automatically calculated shopping lists.

Future features (nice-to-have):
• Upload or browse recipe pictures
• Auto-generate a shopping list from ingredients
• Nutrition info (calories, macros)
• Weekly planner calendar view
• Ratings/comments on recipes
• Personalized recommendations
• Valid until notifications
• Proposal to combine recipes

Proposed MVP:
• ✅ Show a list of recipes
• ✅ Each recipe has steps to cook it
• ❌ Ingredients listed manually by user (no automatic calculations yet)

2. Club & Activities App (Board Game / Diving Club Example)

Vision:
A small web app where friends (or newcomers) can join a club, see upcoming activities, and sign up. Over time, it could support additional features, such as payments, levels, or teaching programs.

Future features (Nice-to-have):
• Club profile pages (info, pictures, member list)
• Online payment for events
• Levels/achievements (e.g., diving certifications, game ranks)
• Ratings & reviews of events
• Integration with Google Calendar or Maps
• Invite system for new members
• Chat for members/for party

Proposed MVP:
• ✅ View list of upcoming events (date + time + description)
• ✅ Sign up for an event (add name/email to the list)
• ❌ All extra coordination (payments, chat, learning modules) handled manually

3. Baby Clothes & Gear Rental Service

Vision:
A service where families can rent baby clothes, strollers, blankets, and other gear for a limited time. After the rental period, items are returned, cleaned, and rented to another family.

Future features (Nice-to-have):
- Online payment and rental extension
- Filters by age/size
- Ratings and reviews of items
- Subscription packages (e.g., "newborn kit for 3 months")
- Delivery and return service
- Tracking item condition and deposits

Proposed MVP:
- ✅ View a list of available items (with description, size, rental term)
- ✅ Reserve an item (no online payment, just a "reservation")
- ❌ Pick-up/return handled manually offline
